

What you need to know about OVERDRAFTS & OVERDRAFT FEES

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway.

We can cover your overdrafts in two different ways:

- We have Standard Overdraft Practices that come with your account.
- We also offer Overdraft Protection options such as Overdraft from Savings or an advance from an Overdraft Line of Credit (members must qualify) which may be less expensive than our Standard Overdraft Practices. To learn more, please ask us about these options.

This notice explains our Standard Overdraft Practices.

What are the Standard Overdraft Practices that come with my account?

We may pay overdrafts for the following types of transactions:

- Share Drafts (Checks), ACH (Automated Clearing House), and other transactions made using your checking account number
- Automatic bill payments

Firelands Federal Credit Union applies Standard Overdraft Practices at our discretion, which means we do not guarantee that we will always pay any type of transaction listed above. If we do not pay an overdraft, your item will be returned.

Firelands Federal Credit Union does not apply Standard Overdraft Practices for the following types of transactions unless you ask us to (see below*):

- ATM transactions
- Regular Debit Card transactions

If you have not made an arrangement for us to pay an ATM or regular Debit Card transaction overdraft, your ATM/Debit Card may be closed if overdrafts occur.

What fees will I be charged if Firelands Federal Credit Union pays my overdraft?

Under our Standard Overdraft Practices:

- We will charge you a fee of up to \$30 each time we pay an overdraft
- There is no limit on the total fees we can charge you for overdrawing your account
