Getting Back in the School Groove

Heading back to the classroom is a big change following a summer of fun in the sun. Some kids eagerly embrace the idea of once again being surrounded by friends and thrive on the familiar tempo a new school year brings. Others resist the disruption to their laid-back lifestyle.

Understanding which mindset your kids are taking into this school year can help you set the stage for success. Creating a transition plan for your family makes the return to school a team effort and reinforces a support system that is essential.

It's Not Rocket Science!

»»»»»»»»»» (it's rocket math!)

- 1 If you toss a bowling ball, a model rocket and a paper airplane, how many toys do you toss?
- 2 The last 10 seconds before a launch are the most exciting! Can you count down from 10 to 1?
Bonus: Which is more, 8 thousand pounds or 4 million pounds?
- 3 Astronauts on the Space Station see a sunrise every 90 minutes! If they see one at 8:30 at "night," when do they see the next? Bonus: It takes about 150 seconds for a rocket to break out of the Earth's atmosphere (the layer of air around Earth), and 2 minutes to burn all its solid fuel. Which happens first?

Answers: 1) 3 toys. 2) 10, 9, 8, 7, 6, 5, 4, 3, 2, 1 Bonus: 4 million pounds, because a million is a lot, lot more than a thousand. 3) At 10:00. Bonus: The fuel happens first, because 2 minutes equals just 120 seconds.

Find these fun math problems and more in the book, *Bedtime Math - A Fun Excuse to Stay Up Late*, Written by Laura Overdeck

Who am I?

Complete the crossword puzzle to reveal each costume!

- 1. Vampire 2. Devil
- 3. Mummy 4. Pumpkin
- 5. Witch 6. Ghost

DID YOU KNOW?

Did you know, if you start with a Kids Savings Club at age 10, and contribute just \$20 a week to the account, you could have \$10,000 saved by age 21?*

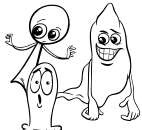

*not a guarantee, rates vary

Which is More?

Color the spooky characters below then answer which side has more!

1

2

29465

3

31022

4

ANSWER

6 × 1000 = 6000
 29465 × 100 = 2,946,500
 3 × 100 = 300
 31022 × 100 = 3,102,200
